

Intrinsic Cabernet Sauvignon

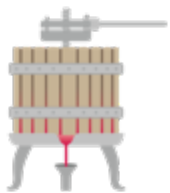

- A Cabernet Sauvignon made using cutting edge techniques creates unique wine styles with bold, rich flavors
- Extended skin contact extracts rich, bold flavors, mellows tannins and creates a silky texture

Vineyard

- Sourced from a variety of vineyards around the Columbia Valley
- These diverse vineyards adds fruit with a range of flavors and creates a finished wine with complexity

Winemaking

- 50% of the grapes on the skins for approximately 9 months
- This extracts deep flavors, mellowed tannins, and creates an unexpected silky texture
- 10% of wine was fermented in concrete tanks, highlighting the mineral character of the wine

Ageing

- 50% of the final blend aged in 100% older French oak for 12 months
- A small portion of the wine is aged in concrete to add a mineral component to the finished wine
