AGAVE

Agave nectar is prized by chefs worldwide for its gently rounded sweetness. So we use organic agave nectar – not high fructose corn syrup or bleached sugar. This allows the subtleties in your spirit to shine through and makes a much more refreshing drink.

KEY LIMES

Key Limes are smaller, have more acid and a stronger aroma than the Persian Limes most common in supermarkets. Also known as a “Mexican” or “bartender’s” lime, they provide the sharp tartness that balances the gentle sweetness of agave and the subtle earthiness of tequila in your new favorite margarita
