

Q TONIC

THE PERFECT ____ & TONIC, EVERY TIME.

With organic agave and real quinine, Q Spectacular Tonic Water is crisp, highly carbonated, and dry – not sweet.

QUININE

The gin and tonic was born. We've returned to the original essence of tonic water with quinine from Cinchona bark grown in its native habitat, the slopes of the Peruvian Andes.

AGAVE

Agave nectar is prized by chefs worldwide for its gently rounded sweetness. So we use organic agave nectar – not high fructose corn syrup or bleached sugar. This allows the subtleties in your spirit to shine through and makes a much more refreshing drink.

EXTRA CARBONATION

A drink stays fizzier longer when it starts with more carbonation. So we pack in as much carbonation as possible, even if it requires running our production line more slowly.
